- Commitment

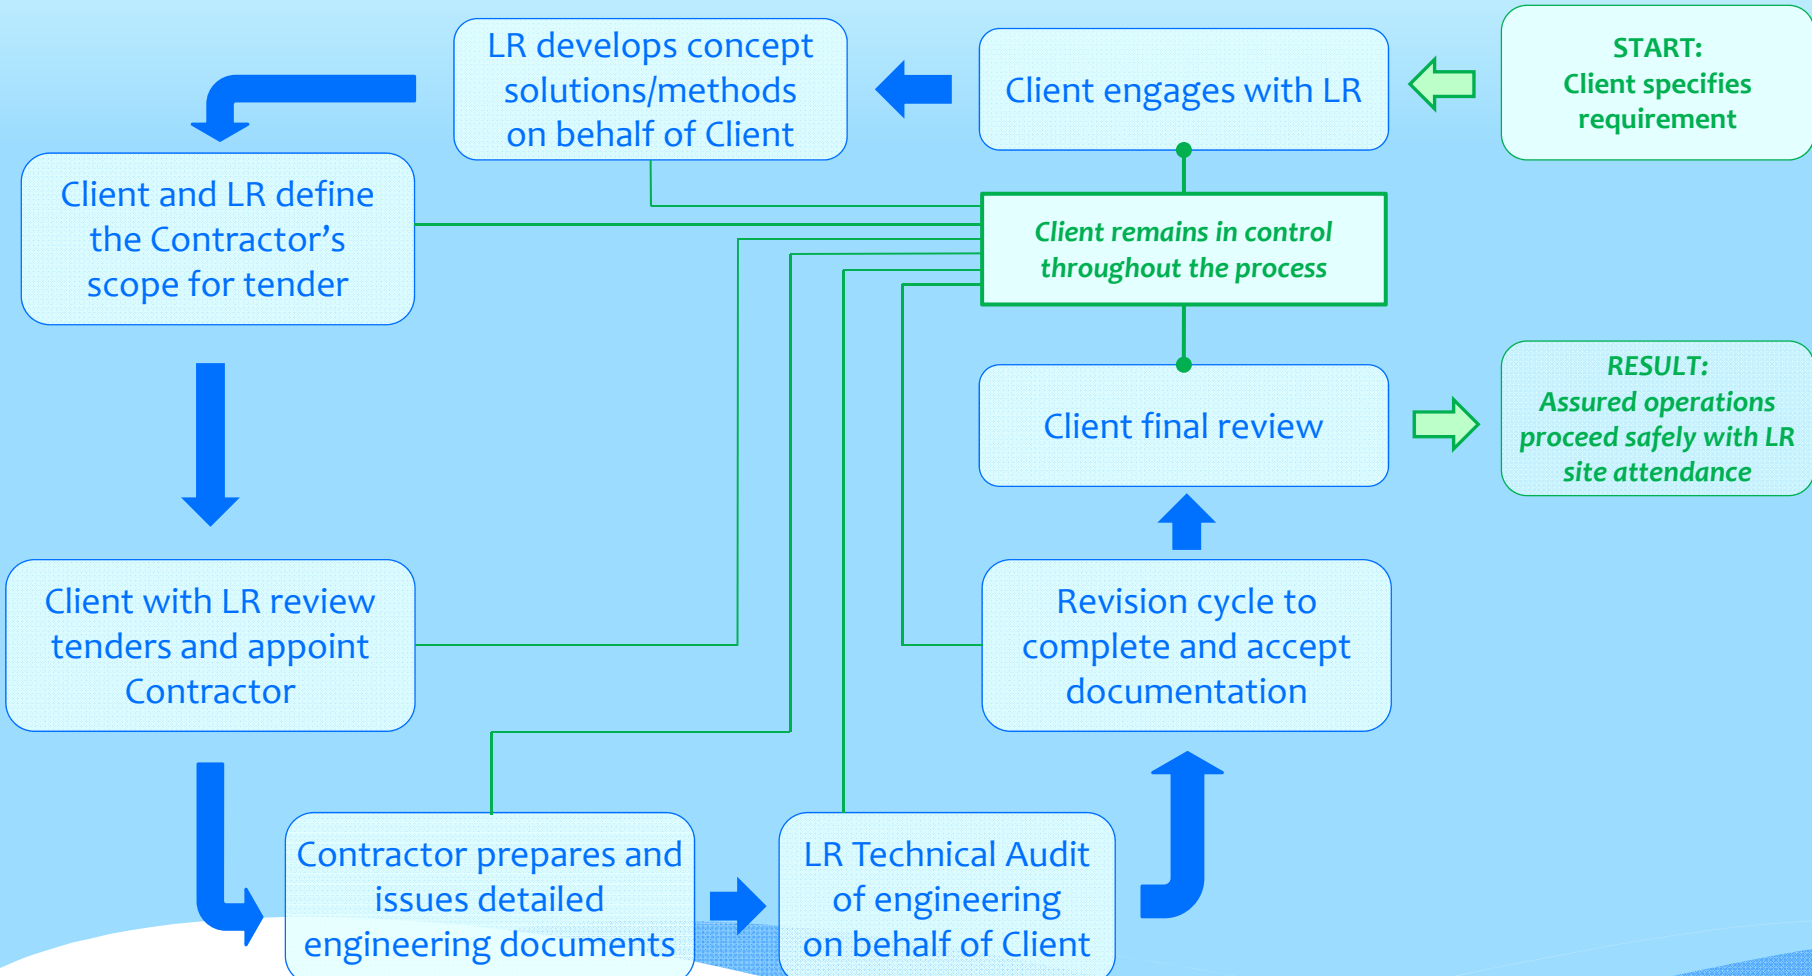

The Methodology of the LR Assurance Service

Lowther-Rolton Key Activities:

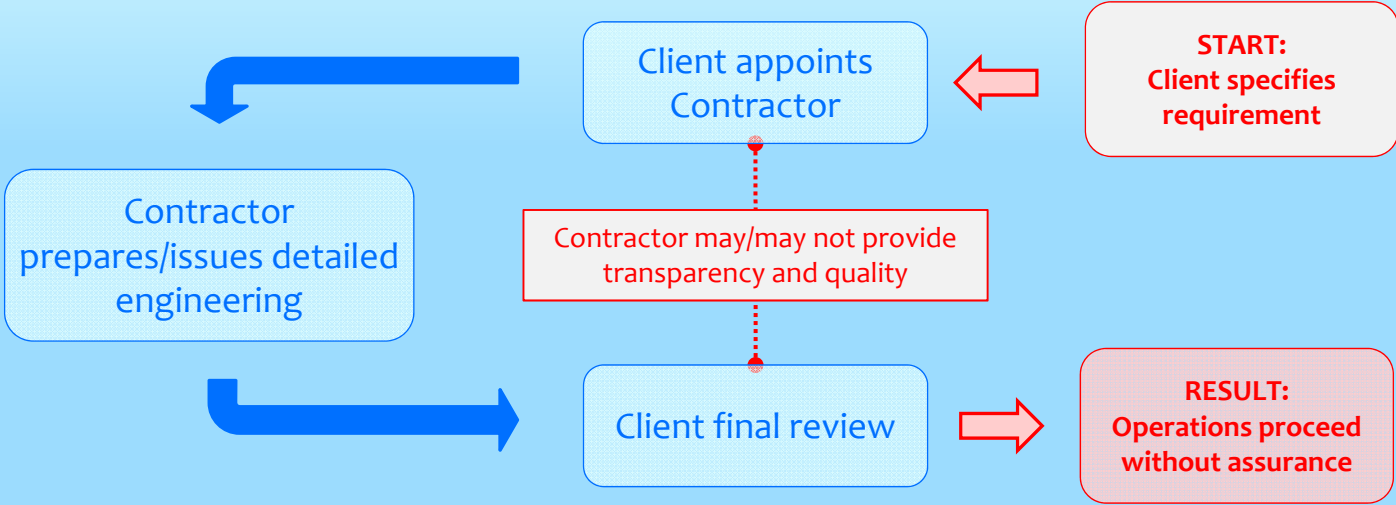

- Develop concepts and solutions
- Cultivate innovative solutions
- Constructability and modularization studies
- Prepare concept drawings and designs
- Prepare tender technical documentation
- Analyze Contractors' tender submissions
- First Party engineering design and documentation
- Technical Audit of design and operational aspects
- Ensure operations are fully and accurately documented
- Attend project locations to oversee operations and provide project assurance
- Support our Client's team

Anatomy of an Engineered Load Movement Project with the LR Assurance Service

Anatomy of a Load Movement Project without Assurance

**Each Client, Contractor and Project is unique.
The type and extent of third party technical assistance
required is also unique and specific to each project.**

The benefits of the LR Assurance Service

Benefits of Lowther-Rolton Third Party Assurance:

- Improved safety and integrity of operations
- Independence means no conflict of interest
- Transparency and clarity
- Improved quality and definition of tenders and submissions
- Improved tendering process
- Competitive, unbiased, environment maintained up to contract award
- Improved content of contracts awarded
- Client is empowered in their relationship with Contractors
- Client team gains confidence in the success of operations
- Client team manages the Project while LR engineers and technicians work on the detail, while maintaining flexibility
- Reduced incident rate with side benefit of increased efficiency, less errors and/or delays

LR Track Record: 28 Years of Independent Service to Clients

by the numbers

- Number of Crane Lifts 6,500+
- Heaviest Crane Lift 3,000Te
- Heaviest Lift by Strand Jack/ Slide System 4,500Te
- Heaviest Lift Hydraulic Jack System 10,000Te
- Heaviest Designed Lift 18,000Te
- Number of Transports on Land 6,500+
- Number of Marine Transports 700+ Shipments

zero incidents or claims
